Why auction?

Most vendors opt to market their property via traditional routes and in doing so miss out on the benefits of auction. Those that auction their property can rest easy in the knowledge that their sale is subject to:

- A secure sale with NO re-negotiation after price has been agreed.
- Bespoke completion dates can be agreed.
- A financial commitment from buyer.
- A fall-through rate of less than 1%.
- Local knowledge with national exposure.

Auction is the best way to eliminate the pitfalls of selling via the traditional private treaty route. We have created a more contemporary route to market and sell your property, whilst you, the seller, remain in complete control.

Sell Your Property Securely with...

0%
SALES FEE!

Our auction service is a method of selling your property that offers:

- **NO fees to pay** - you can sell your property with absolutely **NO estate agency fees!**
- **Control over the price** - the property is never sold for less than you allow.
- **A timeline which suits you** - Your property gets sold fast. The buyer must complete within timescales of 28 or 56 days, or a lengthier completion if more agreeable.
- **A committed buyer** who pays a non-refundable deposit and/or non-refundable reservation fee. They are financially committed to the purchase at the agreed price once their offer is accepted with an instant exchange of contracts.
- **Complete transparency** - The process from start to finish is transparent. All bids on your property are shown in a transparent manner to encourage other buyers to supersede 'current' offers thus achieving you the best price.

ABOUT US

Our first auction took place in 1992 and out of the last 26 years, the last 18 months have been some of the most important yet. We have been named the fastest growing auction provider by The Essential Information Group, ending 2017 with a **62% increase** on the total income of 2016. We have not lost momentum since and are just as confident as ever in our product and look to expand even further. Recently, we have forged partnerships in Northern Ireland and Scotland as an answer to the growing demand for our services, adding to our network of agents that already span England & Wales.

Comparatively between January and June 2017 to 2018, we have seen a **53% increase** in the value of properties via bids placed online. The exchanged income from these properties has **increased by 66%** highlighting the significance of innovation in our online auctions. Our aim is to develop the technology to accommodate the smooth transition from physical to online auctions. From the figures this is what our customers and partners require and we will work with them to be the best auction service provider in our ever-changing industry.

Brighton Grove, Arthurs Hill, NE4 5NS

- Terraced Property
- Potentially Five Bedrooms
- Requires Refurbishment
- Great Investment Opportunity

SOLD FOR £14k OVER STARTING BID!

Sold at Auction for £104,000

Starting Bid was £90,000

The North East auction team generated **61 viewings** for the terrace in Arthurs Hill. People often think of December and January as quiet times of the year for the property market but we understand that the buyers who express interest in a property at this time of year are serious.

This auction property was in need of refurbishment but still sold in our January auction for **£14k** more than the starting bid.

The starting bid was **£18,000** and it eventually sold for **£40,000**. From our experience our auctioneers know that a low starting bid is one of the best ways of getting people through the door especially for a property like this one. This was always going to prove attractive to investors especially as those who had been monitoring the market would be aware that down the road is no. 15 Sheepwash Bank which sold for **£90,000** recently. Any investor would jump at the chance of at least investigating the property and seeing why the starting bid was low and what they would like to pay for it.

Auction success story

The net yield from this portfolio of properties is very high and, with a firm standing in the North East market, we were able to contact a huge circle of investors who would be interested. The starting bid was **£330,000** and, by drumming up interest among the right buyers, the final sold price was **£365,000**. The whole portfolio had undergone a full refurbishment across all 4 properties which helped us to narrow down the prospective buyers to those who had expressed an interest in properties that would need little to no work once bought. Targeted marketing resulted in **20 viewings** and an increase on the starting bid of **£35k**.

Auction success story

The vendors of the Lobley Hill property had not previously used auction but were interested to find out more about how to achieve a fast, secure sale. The family of the vendor told us, ***"It is actually my daughter's property. As a lawyer, she often has to work away so she needed a way to sell her property hassle-free."*** The property was sold in the live auction event in July 2018. An attractive starting bid of **£99,950** had been used to generate interest among prospective buyers & six weeks after the property went live it had been sold.

The intense marketing of Balaclava Street resulted in 24 viewings. The property was entered into a physical auction due to the interest it was generating. The number of viewings and bids on the three-bedroom end-terrace in Preston demonstrates the impact of our marketing. Each prospective buyer has been given as much information as possible on the properties when they have expressed an interest. This results in an effective use of the buyer, the seller, the agent and the auction co-ordinator's time. A fast sale was secured for this six-bedroom detached house in Bridlington due to the interest generated. Out of **14 viewings** there were **10 bids** as the prospective buyers that were contacted about the property had been asked about the specific requirements they needed from their next property. A higher quality of interest can only be achieved by complete transparency of what the buyer needs and what the seller expects from their sale. We achieved **£15,000** more than the starting bid at auction by putting this into practice.

A complete service! Great communication and confirmation of viewings. A cost effective way for any vendors to sell a property quickly and without risk. Payment of our account was also prompt. I would highly recommend this service and company.

Roxy A ★★★★★

I have sold a few of my own properties and also from my company for other landlords.

With my own properties, they sold v quickly and two of them exchanged within three weeks of putting it on the market. Found it so much easier than going through Agents. Because I knew it was completing within 28 days I had no hassle, calling Agents, chasing solicitors. There was no fees to pay and i have never sold properties this easy!

Would highly recommend. Normal methods are a nightmare!

S. Davis ★★★★★

Carole was patient and kept us informed through the process. Professional in every way.

Auction success story

The first bid for this four-bedroom semi-detached was placed only 6 days after the property went live in an online auction. **Only 3 weeks and 12 bids later, the original offer had been increased by £20,000.** The bay-fronted Victorian villa retains many character features and prospective buyers could find fantastic potential for a loft conversion and an extension to the rear of the property. It sold for **£29,000 over the starting bid** for a final price of **£289,000 within 1 month.**

S. Ferguson ★★★★★

Tried other so called 'property cash buyers' looking for a quick sale, with disappointing results. Switched to Pattinsons Auctions and sold my house within less than 3 weeks of them stepping through the door to initially value it! They kept me informed every step of the way and got me a much better price than I had been offered from any 'quick sale home buyers'. **Don't google others, just google Pattinsons!**

S. Daniels ★★★★★

Last year I bought a house through Pattinson Auction House and the whole transaction took about 3 days from start to finish. I dealt with Bobby Myers and was so impressed by his help as this was the first time I had bought a house this way and was nervous. Bobby was always reachable and if not, he returned my message within 5 minutes- an awesome service and Bobby was such a pleasure to deal with and extremely proactive. The whole transaction went through very smoothly and trouble free. I would definately not hesitate to buy this way again. And ..big thanks to Bobby - he was amazing!

P. Robbins ★★★★★

I was very impressed with the professionalism of this company. They stuck to their word at all times and always kept in contact. Lee was my contact who was a pleasure to do business with. Well done.

Auction success story

It is a common misconception that auction properties have to be run down and dilapidated to do well. This five-bedroom semi-detached property in Essex completely defies this notion. Not only did it achieve **£45,000 more than the starting bid** but it sold quickly and securely. Unlike the properties most people imagine when they think of auction, this Essex mansion is the height of luxury with five double bedrooms, an amazing garden and a 30ft heated swimming pool in a detached annex.

Auction success story

This unique opportunity to purchase a four bedroom detached bungalow with planning permission for two family homes. The scope for development of this property is fantastic and the interest generated by the auction team resulted in a huge **£1.9 million sale**.

The property had been introduced by our partners at **Chase Buchanan** who received **£38,000** from this sale alone. This is a fantastic example of how our agents benefit from our success. It costs them nothing to be part of our network and they earn great rates of commission.

Auction success story

The seller of this 2 bedroom apartment had already accepted an offer on the open market but the sale had fallen through. This made auction even more appealing and we delivered what was expected. **6 weeks after making the decision to participate in an online auction the property had been sold for £25,000 more than the starting bid at £200,000.** The security of the auction sale is due to the financial commitment that a buyer is obligated to make immediately. This means that every offer must stand and the problems of gazumping and gazundering are eliminated.
